

## You are a wine merchant and/or importer?

Until now you have not been able to:

- Spend sufficient time to explore properly a wine-growing region, with extensive travel on small country roads
- Find a facility for professional tastings and comparisons of different wines, where you can also stay overnight on-site; and
- Have the option of purchasing mixed pallets of wine from the diverse producers and appellations of the Languedoc-Roussillon region

**VINAUBERGE** now enables you for the first time to overcome these key business constraints. The Showroom of Languedoc and Roussillon wines – to give its proper name – in the lovely village of Poilhes, on the banks of the Canal-du-Midi, offers a comprehensive service to wine buyers and merchants from around the world. **VINAUBERGE** organises the supply and demand of its widest spectrum of wines in a unique and very innovative way.

Lastly it should be stressed that **VINAUBERGE** is an independent enterprise. The initiative was conceived by a small group of private investors with years of experience in the wine trade to meet a very real and pressing need. The site was actually developed on the site of the former Poilhes wine co-operative. It has the air of a well-kept Château, immediately adjacent to a wide bend in the Canal-du-Midi, a World Heritage site.
